SUMMARY

B.Tech Information Technology student with hands-on experience developing scalable full-stack and AI-based applications using Java, React.js, Flutter, and MySQL. Skilled in REST API development, Object-Oriented Programming, and responsive application design through academic and internship projects. Seeking an entry-level Software Developer role to build efficient real-world software solutions.

EDUCATION

Sri Krishna College of Technology | 2023 – 2027

Bachelor of Information Technology

CGPA: 8.16 / 10

PROJECTS

Software Developer | Money Manager (React, Java, MySQL)

- Engineered a full-stack financial management application using REST APIs with MVC authentication.
- Optimized MySQL database schema to improve transaction handling and data retrieval efficiency.

Software Developer | E-Commerce App (Flutter)

- Created dynamic mobile e-commerce UI with product listing and filtering features.
- Created admin dashboard screens and managed source code using GitHub version control.

Software Developer | AI VizGuard (Machine Learning)

- Developed an AI-based deepfake detection model
- Presented the solution at SAP Hackathon and achieved finalist recognition.

Software Developer | Attendance Automation (n8n)

- Automated attendance workflows with email alerts using low-code automation platform (n8n).
- Applied conditional logic to streamline tracking and reduce manual effort.

EXPERIENCE

Python Full Stack Developer Intern – TechNita | May 2025 – June 2025

- Built 3+ responsive e-commerce modules using React.js, MySQL, and REST APIs, improving UI responsiveness by ~25%.
- Integrated 5+ backend REST APIs for product and order workflows, reducing manual data handling by ~30%.
- Collaborated with a small development team to debug issues, optimize frontend components, and deliver new application features.

ACHIEVEMENTS

- SAP Hackathon Finalist – Presented AI-based deepfake detection solution.
- NPTEL (Elite) – Industry 4.0 Certification
- Solved 50+ Data Structures & Algorithms problems (LeetCode & GeeksforGeeks)

SKILLS

- Java • Python • SQL • React.js • Flutter • HTML5 • CSS3
- REST APIs • MVC Architecture • MySQL • Object-Oriented Programming (OOP)
- Data Structures • DBMS • Git • GitHub • VS Code • SQL Workbench
- Machine Learning Basics • Classification Models
